

**AUTHORIZATION TO USE
DRIVEWAY AND/OR ACCESS PROPERTY**

GSI Representative _____

Customer Account # _____

Dear Customer,

The following authorization is required for Gallegos Sanitation, Inc. to drive any of its trucks on your driveway or access your property. Due to the location of the equipment, as requested by you, it is necessary to use your driveway or property to gain access to the equipment. Before signing this form, you should be aware of the following:

Sanitation collection and service equipment can weigh as much as 54,000 lbs. gross vehicle weight. The minimum pavement thickness required to carry this much weight is six (6) inches of reinforced concrete or the structural equivalent in asphalt and base course. A normal residential driveway does not provide adequate support for a garbage truck, therefore, there is a reasonable likelihood that driving our trucks on your driveway will cause damage to the driveway and/or the subgrade. Even with adequate pavement, collection vehicles may still damage the driving surface due to subgrade failure or other causes. Even greater damage could occur if we are asked to drive over your lawn or other dirt area.

By signing below, the owner or agent of the property is giving permission to the drivers of our trucks to drive on the driveway or use other means to access your property. Our drivers must have a signed copy of this form before servicing any container requiring the use of the driveway or property.

Gallegos Sanitation, Inc.

I have read and understand the above statements, and, on behalf of the owner (if different) or lessee of the driveway or property right-of-way:

I warrant that I have the authority to sign this Authorization and that any private right-of-way provided at the address set forth below is sufficient to bear the weight of Gallegos Sanitation, Inc.'s trucks, and therefore, grant permission to drive on that right-of-way. I acknowledge and agree that Gallegos Sanitation, Inc. is not responsible for damage or repair to any pavement, concrete, or subsurface thereof.

The owner or lessee of the right-of-way hereby releases, discharges, and waives any and all actions, causes of actions, and claims for property damage to private driveways, sidewalks, parking lots, lawns and associated structures and sub-grade which may be caused by Gallegos Sanitation, Inc.'s equipment when utilizing a route reasonably necessary to perform services contracted by Customer.
